ABOUT THE CRIMSON CIRCLE

The Crimson Circle is a global affiliation of New Energy spiritual teachers and facilitators. The purpose of the Crimson Circle is to inspire human and spiritual consciousness around the world. Crimson Circle affiliates are experienced metaphysicians, healers and spiritual counselors coming from all walks of life, a wide variety of spiritual backgrounds, and more than 100 countries around the world.

The Crimson Circle offers holistic and spiritual lifestyle messages, products and services. One of the primary purposes is to support the worldwide group of affiliate teachers unified in their process of spiritual awakening, teaching and living. The Crimson Circle has an open belief system that honors all people and belief systems, and does not subscribe to limitations involving the human condition.

The Crimson Circle began in 1999 based on the inspired messages of Tobias. Tobias is best known for his lifetime over 2500 years ago as portrayed in the apocryphal Book of Tobit. He now brings his messages, wisdom and humor through Geoffrey Hoppe to assist those who are going through the process of in-body spiritual transformation, and those who choose to be New Energy teachers.

The Crimson Circle is known as the "Classroom of the New Spiritual Energy." The group works with the dynamics of psycho-spiritual empowerment and enlightenment, integrating our personal divinity and humanity, and embracing God within. The Crimson Circle is about discovering that "You Are God Also," and experiencing life with a new sense of purpose and passion.

THE BIRTH OF THE CRIMSON CIRCLE

In August 1999 a small group of friends gathered in a tepee in rural Woodland Park, Colorado to listen to the words of Tobias coming through Geoffrey Hoppe. This was the first "lesson" delivered by Tobias, and the official beginning of the Crimson Circle.

In early 2000, the Crimson Circle started an Internet web site (www.crimsoncircle.com) where all of the Tobias lessons are now available in print or audio versions. The web site attracts over 200,000 visitors each month from all corners of the world. Monthly meetings are held in Coal Creek Canyon, Colorado where Tobias delivers the latest information and answers audience questions. These meetings are also broadcast live on the Internet.

The purpose of the Crimson Circle is to provide a consciousness-gathering place for humans who are going through a spiritual awakening process. These same people may then choose to serve as guides and teachers to other humans as they begin their awakening. According to Tobias, the most powerful and credible guide is not a celestial angel, but rather a human angel who has already walked the path.
